## POSITIVE SNOW CONTROL IN SANTA CATERINA. THIS IS THE EVENTS' PROGRAMME

SANTA CATERINA VALFURVA (So) - December 15, 2016

It's green light for the Deborah Compagnoni track from Markus Waldner (Chief Race Director World Cup Men) and Hannes Trinkl (Race Director World Cup Men Speed Events) after this morning's "snow control" on the pist where three races are scheduled at the end of December in Santa Caterina Valfurva (Sondrio). The FIS directors had already seen the track in the previous days and that of yesterday was only just a formal confirmation.

The track Deborah Compagnoni is in excellent snow conditions and the organizers are working to fix the last details. The lower part of the track has already been tested: six FIS races took place last week and now the entire track is ready to host the trainings of the Italian and Austrian teams on Monday, December 19 and Tuesday, December 20. Meanwhile, other teams have already asked to train on the race track, taking its many difficulties into consideration.

This is the programme of the Men's World Cup in Santa Caterina.

- **Monday, December 26 at 11:30 am: Downhill training**
- **Tuesday, December 27 at 11 am: Super-G race (due in Lake Louise). Downhill training**
- **Wednesday, December 28 at 11:45 am: DH**
- **Thursday, December 29: Alpine combined (10:30 am Super-G, 2 pm Slalom)**
